

Discord API + discord.py

W tej prezentacji

- Czym jest Discord API?
 - API(Application Programming Interface) służący do komunikacji między klientem a serwerem.
 - Pozwala programistom robić botów i aplikacje, współdziałające z serwerami, kanałami, wiadomościami i użytkownikami Discord.
- Czym jest discord.py?
 - Biblioteka dla Python-a ułatwiająca interakcję z Discord API.
 - Łatwa w użyciu i zoptymalizowana do tworzenia botów i integracji.

Instalacja biblioteki

```
(.venv) PS C:\Users\nikit\PycharmProjects\JPWP> pip install discord
```

Jest potrzebny python 3.10+

Create Your Server

Your server is where you and your friends hang out. Make yours and start talking.

Tell Us More About Your Server

In order to help you with your setup, is your new server for just a few friends or a larger community?

For me and my friends

For a club or community

Not sure? You can skip this question for now.

Back

Customize Your Server

Give your new server a personality with a name and an icon. You can always change it later.

UPLOAD

SERVER NAME

test

By creating a server, you agree to Discord's Community Guidelines.

ACTIVITIES

Getting Started

Bot

Bring your app to life on Discord with a Bot user. Be a part of chat in your users' servers and interact with them directly.

[Learn more about bot users](#)

Build-A-Bot

Bring your app to life by adding a bot user. This action is irreversible (because robots are too cool to destroy).

TOKEN

For security purposes, tokens can only be viewed once, when created. If you forgot or lost access to your token, please regenerate a new one.

Reset Token

Authorization Flow

These settings control how OAuth2 authorizations are restricted for your bot (who can add your bot and how it is added).

PUBLIC BOT

Public bots can be added by anyone. When unchecked, only you can join this bot to servers.

REQUIRES OAUTH2 CODE GRANT

If your application requires multiple scopes then you may need the full OAuth2 flow to ensure a bot doesn't join before your application is granted a token.

Privileged Gateway Intents

https://discord.com/oauth2/authorize?client_id=1241863219426099463&permissions=80scope=bot

Copy

An external application
My_App APP
wants to access your Discord account
Signed in as blfat. [Not you?](#)

THIS WILL ALLOW THE DEVELOPER OF MY_APP TO:

- ✓ Add a bot to a server
- ✓ Create commands
- ✗ Solve a mystery with Scooby and the gang

ADD TO SERVER:

test123

This requires you to have **Manage Server** permission in the server.
